

We accept PSD, TIFF, JPEG, EPS, or PDF. We also accept program documents that include fonts and images. Below is a more specific list of our art requirements.

All art submitted to Quality Express Printing should:

1. Be created or placed into the following: Adobe Programs (Photoshop, InDesign, Illustrator, PageMaker, and Acrobat), Quark Express, Microsoft Office Publisher, or Microsoft Office Word.
2. Be the correct size and resolution. **NOTE:** Resolution must always be 300 DPI (e.g. 8.5" x 11" at 300 DPI).
3. Include the job name in the file name (e.g. RecorderFlyer.psd).
4. Include image data for desired bleed (standard or custom).
5. Be colored and profiled in proper color format. **NOTE: A two color job designed in the wrong format will default to full color art. Full color art is priced more expensive.**
6. Have spot colors or PMS colors selected in the documents.
7. Be in one of the following formats: PSD, TIFF, JPEG, EPS, or PDF. All files **MUST BE** zipped before uploading.
8. Include PMS call outs entered in the appropriate field on email (when applicable).
9. **NOTE: Any art submitted that requires any reformatting, corrections, color conversions, color corrections, touch ups, or any redesigning will be charged extra. There is a \$50.00 per hour charge for any detailed manipulation to customer art.**
